Re: Operation "Ice Tiger"

Date: 25 June 2034

SITUATION

SUMMARY

The last two weeks, SatNav has been tracking a heavy armored squadron consisting of 6 T100 MBT's, 1 x Tigris and APC's plus supporting units. SatNav lost Ice Tiger due to severe overcast weather. According to Nikkos, Ice Tiger should be in the North Western part of Altis. We need confirmation on its exact location.

INTEL ON ENEMY FORCES

Besides the Ice Tiger squadron there is not much CSAT activity in the area. Try avoid Abdera airfield as it is once again heavily guarded.

NATO FORCES

Three troops:

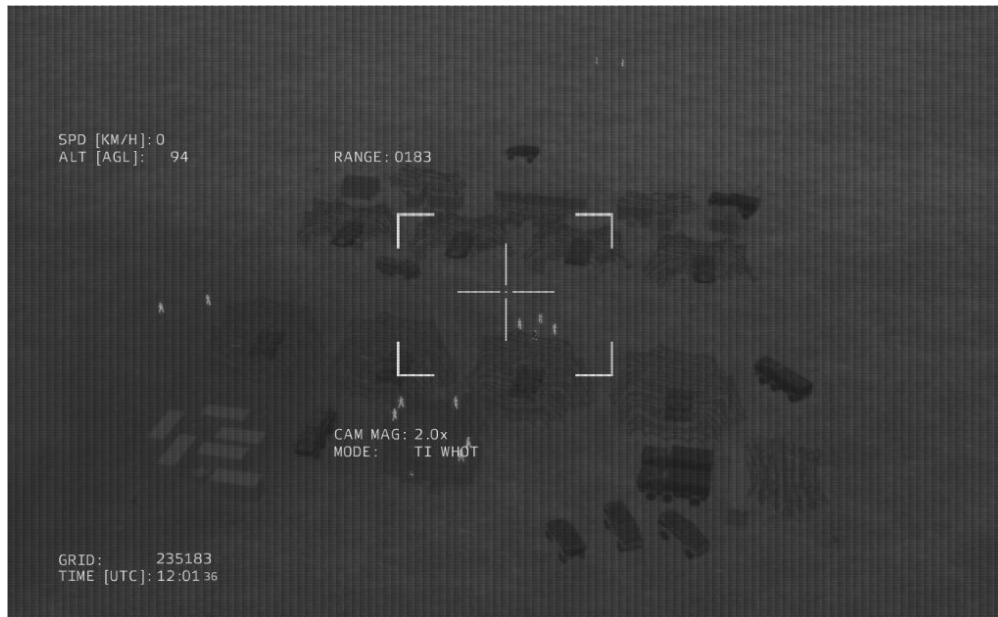

One command troop - SSC, marksman, squadron paramedic and a recon/UAV specialist.
Two assault troops (AT) - Troop Leader and 4 Assault Specialists.

There are no other operations on Altis that we are aware off.
