Re: Operation "Kajman Fire"

SITUATION

SUMMARY

Following last night's successful operation, J.S.O.C. wants your men to get back into the game immediately now CSAT's military intelligence is in disarray.

So far CSAT is unaware of our operations. And we intend to keep it that way. We are currently structuring a lot of intel that we have acquired through Nikko's team, Satnav and Wolf 6's mission of last night. So far we have determined that CSAT's forces are more formidable than we anticipated. CSAT has taken over the Abdera Airfield and turned the airfield into a helicopter base. The base is home to the 127 AAC Squadron with 6 or 8 Kajman Attack helicopters and to the 17 Air Support Group. The Kajman is a formidable opponent and can do some serious damage to the upcoming campaign. About one kilometer north east lies the village of Krya Nera. This used to be a little fisherman's village until CSAT stationed a small fleet of attack vessels there.

INTEL ON ENEMY FORCES

The Krya Nera Naval Base is moderately protected by one CSAT squad. Satnav picked up two small patrols in the immediate area. The Abdera Airfield has tight security with 4 checkpoints, numerous observation towers and patrols. Strategic command ensures that the Kajmans can be sabotaged covertly. I leave the MO up to you.

NATO FORCES

Three troops:

One command troop - SSC, marksman, squadron paramedic and a recon/UAV specialist.
Two assault troops (AT) - Troop Leader and 4 Assault Specialists.

There will be no support on this op as well. This is a 'plausible deniability' op. We cannot offer any help or assistance if you get caught. You are on your own. You know the drill.

Wolf 7 (call sign Redbuck) is on a recon op near Camp Delta, North East Altis.

OBJECTIVES

MISSION OBJECTIVES

Primary objective: Abdera Airfield, sabotage all Kajman Attack helicopters stationed at the airfield.

Secondary objective: Krya Nera Naval Base, take control of the Naval Base and wait for further instructions.

TACTICAL / EXECUTION

CONCEPT OF OPERATIONS

The area of operations is nice and compact, just 2 square kilometers. You'll need solid tactics to stay covert and maintain your cover.

The terrain and weather are ideal for covert routing tactics. TOC will support with up to date Satnav intel.

TACTICAL MOVEMENT

AT's will relocate in a bounding fashion unless otherwise ordered. Command troop will provide cover and support for the AT's. TOC recommends to approach the airfield from two angles simultaneously. Have two teams cover the airfield whilst a small demo team inserts and applies explosives. Control points, BP's and routes will be briefed on-site by SSC.

WEAPONS/FIRE SUPPORT

No support available.

DEVGRU TOC / Satnav will be monitoring the op.

SPECIAL OPERATIONS

No other operations available.

CALL SIGN

To be briefed en-route.

SIGNAL & COMMS

RADIO COMMS

Command: CH 1

SQUADRON LEVEL (148)

Wolf: CH 2

TROOP LEVEL (343)

Wolf 1: CH 1

Wolf 2: CH 2

Wolf 3: CH 3

SIGNALS

White smoke	- smoke concealment. No signal.
Green Smoke	- safe area signal.
Red Smoke	- hostiles area signal (position known).
Orange smoke	- hostiles area signal (position unknown).
Purple smoke	- Bluefor at smoke, hostiles near signal.

Green chemlight - Safe/Searched (in buildings).
Red chemlight - Not Safe/Not searched (in buildings).

M.O.B. & LOGISTICS

PLAYER RESPAWN/JIP

No respawn/JIP available.

PLAYER LOADOUT

Pre-defined, role-specific loadout.

VEHICLE RESPAWN

No respawn available.

VEHICLE SUPPLY CARGO

Not applicable.

TRANSPORT ARRANGEMENTS

Insertion by MH-9 ex Romeo, approx 1.5 miles east of Krya Nera
